JOSEPH DANIEL "MCCLOZKEY"

Contemporary Artist

Joseph, a Philadelphia native, established the Mcclozkey Art Studio in 2018. His unique "love language" style involves Roman numeral encryption on a T9 cellphone keypad, resulting in intricate compositions resembling hieroglyphics or binary code. Influenced by modern design and artists such as Jean Michel Basquiat, his diverse portfolio ranges from vibrant abstract pieces to monochromatic works.

Joseph's artistic achievements include displays in private collections, galleries, and exclusive clubs across the US. In 2023, he partnered with Porsche, and also commissioned artwork for the company's President. His masterpieces adorn healthcare organizations, medical offices, and corporate settings nationwide, with commissioned projects for CEOs and executive teams. Through his creative prowess, Joseph aims to enrich lives and foster a sense of value and connection in his art.

LOVE LANGUAGE STYLE

Joseph's unique artistic language, known as "love language," characterized by Roman numeral encryption. This cryptic form of expression involves translating words, quotes, and personal journal entries into numeric code using a T9 cellphone keypad, where each number corresponds to a letter. The resulting compositions often resemble intricate bodies of text, hieroglyphics, or even binary code. Within each meticulously crafted painting lies the intention to explore profound subjects, including psychology and the growth mindset, among others. His portfolio spans a spectrum from vibrant and abstract compositions to striking monochromatic works, skillfully informed by his study of modern interior design aesthetics and influenced by abstract art luminaries such as Jean Michel Basquiat.

LOVE LANGUAGE ABSTRACT

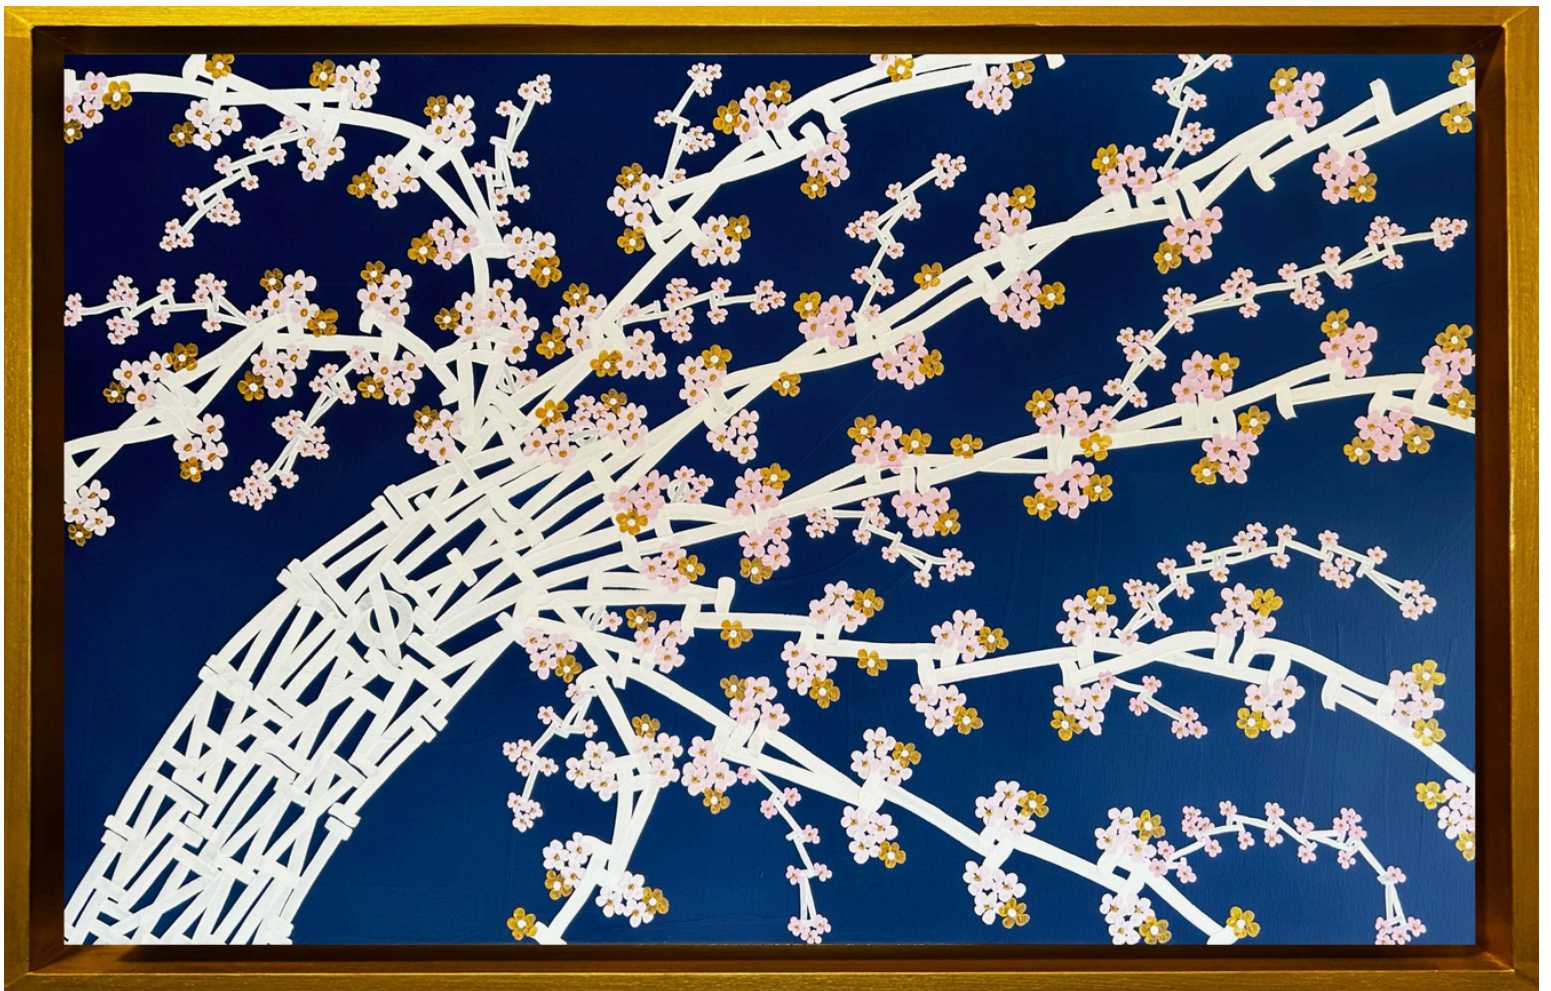

Joseph's abstract work, characterized by its fluid brush strokes and the use of Roman numeral language, skillfully depicts the delicate balance between chaos and order. Each artwork tells a distinct story rooted in psychology and personal experience, expertly fusing spontaneous creativity with a purposeful selection of materials. The result is a mesmerizing interplay of colors, emotions and thoughts meticulously crafted on canvas.

Love Language 2023, 40 x 40 in

GROWTH STYLE

Joseph's Growth paintings are powerful symbols of personal development, encompassing a wide array of life's dimensions, including personal and career growth, spiritual, financial, social, physical, and intellectual advancement. Each artwork embodies the notion that growth is a responsibility for those courageous enough to seek it, acknowledge it, and take action. These paintings are a testament to Joseph's unwavering belief that every individual harbors the potential for growth, irrespective of their current life circumstances. They stand as a reminder, much like the handwritten statements of encouragement adorning Joseph's workspace, with examples such as "Love the discipline you know, and let it support you." Through his art, Joseph serves as a profound reminder of how continuous growth leads to a deeper self-understanding and enriches the lives we lead. It underscores the importance of each day's progress in building a foundation for a more fulfilling present and a brighter future.
